

Privacy Policy

What information do we collect?

We collect information from visitors when they register user accounts at our site, request information, place orders or submit support forms.

Typically, we will ask for a visitor's name, phone number and email address. Some transactions require the name of the company where the visitor works, web site URL(s), descriptions of support issues and alternate methods of contact.

At no time will visitors be asked to provide financial information such as credit card numbers, banking information or social security numbers.

What do we use the information for?

UWS collects the contact information of visitors who have demonstrated an interest in our products and services. We will use this information, with permission, to contact these visitors with marketing and promotional communications.

How do we protect this information?

The information we collect is securely stored in a database accessible only by administrative staff. We employ a number of safety measures to ensure that the information we collect does not leave our possession.

Sharing and Third Parties

UWS does not share, rent or sell the contact information of visitors or clients to any Third Party interest for any reason. We do not engage in or endorse the proliferation of SPAM and have little tolerance for marketers that do.

Changes to this policy

This policy is subject to change and in that event, those changes will be published on this page. For additional information or questions regarding this policy, please contact our office.
